

THE COMPETITION TASK

COMMON REQUIREMENTS

The task of the contest is comprised of two themes. To participate, you must send 3 or more designs for each of the contest themes. Overall, the minimum number of works should amount to 6.

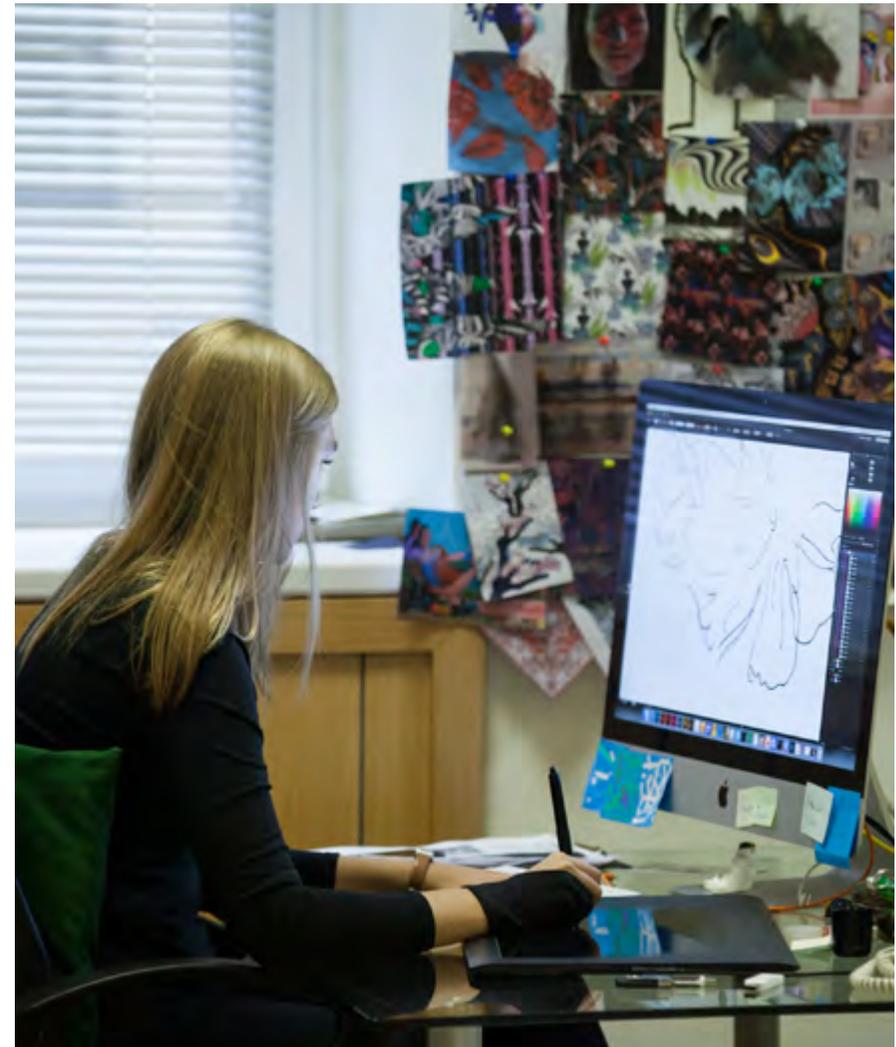

The works of each participant are assessed as a whole. The themes of the contest are presented as mood boards.

Mood boards are not a direct guideline to follow – you should not try to repeat the works presented in them. The contestant can freely interpret the materials presented for inspiration, in accordance with their own vision.

The submitted work may be a composition with or without repeats.

You may submit new works created specifically for this contest or designs you have made before. We urge you to be attentive to copyright compliance!

Technical requirements: JPEG format, image size: not to exceed 1 MB, not less than 1,000 pixels on the longitudinal side, resolution: 150 dpi.

⁴Vladislav Ociacia

Taking inspiration from science and technology and bringing that to the gaming and cyber-sports style. We are looking for descriptions from the best of fantasy, thinking about augmented reality and the possibilities of artificial intelligence. Expanding the horizon, freeing the imagination and defining the style of the future. Creating hyperreal visual effects. Dressing avatars in meta space and friends IRL in the same fabric pattern.

We create new heroes of the universe for placement and for conversational prints

Bold colors, soft ombre lines, degrade, slogans and mysterious signs.

Our task is to transfer digital images to the physical world, please, do not forget that the competition welcomes bold but feasible solutions.

Application to 3D clothing is also welcomed in your presentation. We encourage all elements that can be used for digital printing. Do not hold back on using color.

HOBBY - FLOWERS

¹²Chloé S/S 2022

Maximalism, bright, decorative, bold. Handcraft patterns with flowers, imitation of flora embroidery in the fabric pattern. We draw flowers as if crocheted. We create a deceptive sense of volume, achieve a tufting effect in the drawing, decorative embellishment with thread, and draw deceptive quilting stitches and imaginary garden-themed appliqués.

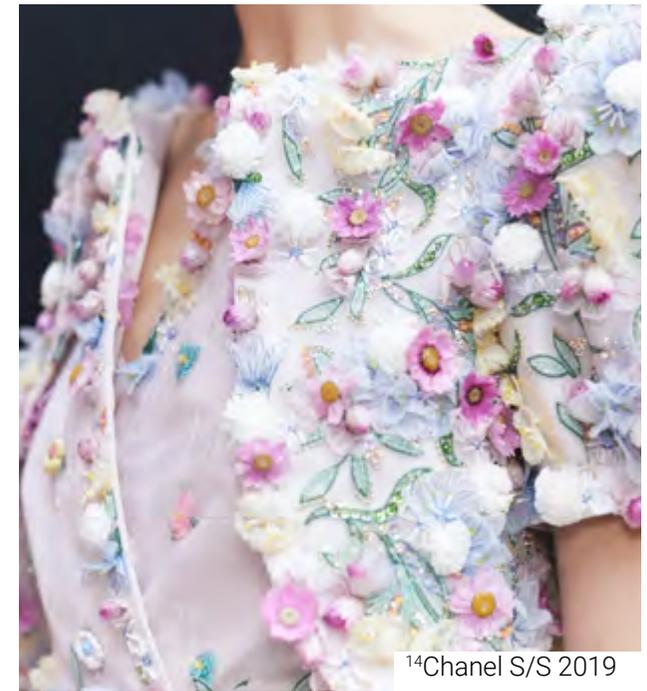

We transfer hobbies to the fabric. We use the color unexpectedly boldly; there can be fluorescent colors, imitation of textures.

Optical illusion (fr. Trompe-l'œil) - is our weapon. Let everything you draw looks like the result of long hours with a needle, thread and knitting.

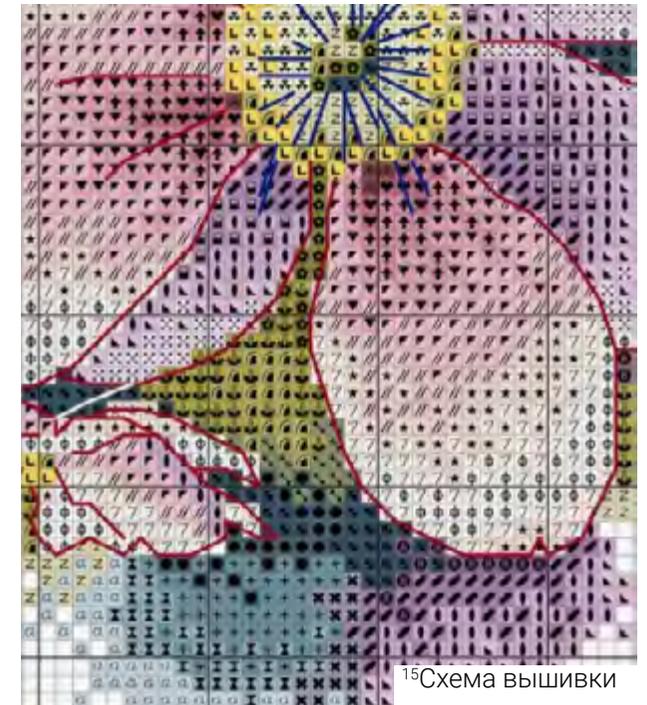

We are inspired by home crafts and handicrafts.
